Welcome

This workbook is designed to help your ministry move from vision to funding.

You will:

- **Identify funding opportunities**
- **Organize next steps**
- **Recognize assets already in your hands**
- **Begin financial readiness for grants and loans**

Funding follows preparation.

FINANCIAL READINESS PROGRAM

Ministry Financial Readiness Program

- ✓ **Emergency Fund**
- ✓ **Mutual Fund (Long-Term Reserves)**
- ✓ **Automated Contributions**

Starting at: \$25 per month

Even small, consistent steps build credibility.

Why This Matters:

- **Shows financial discipline**
- **Improves loan readiness**
- **Strengthens grant applications**

- ☐ I want to enroll
- ☐ I want more information

Addendum 3:

Step-by-step: Become “Grant-Ready” (IL + WI)

1) Federal baseline (everyone needs this)

- 1. Get/confirm your EIN (IRS). Apply online (free). Only use .gov sites.**
- 2. Get your UEI (Unique Entity ID) at SAM.gov. You can request a UEI; to *receive* federal funds you’ll also need an active SAM entity registration.**
- 3. Complete/activate SAM registration. During SAM you’ll enter banking, reps & certs; SAM assigns your CAGE code automatically once active. Keep SAM renewed annually.**
- 4. Create your Grants.gov account + organization profile. Add an Organization Applicant profile and have your EBiz POC (listed in SAM) assign roles (e.g., AOR to submit). Use Workspace to apply.**
- 5. (Optional for DOJ) If you’ll chase DOJ dollars, review JustGrants submission flow/timeline (SF-424 in Grants.gov first).**

Pro tip: Set Grants.gov saved searches (keywords like *community center, youth, food pantry, Illinois, Wisconsin*).

2) Illinois specifics

- 1. GATA Pre-Award (required for *all* IL state grants).**
 - **Create an Illinois.gov login and register your org in the Grantee Portal.**
 - **Ensure Pre-qualification items are clean (active SAM/UEI, Good Standing, not on Stop Pay, etc.).**
 - **Complete the annual ICQ (Internal Controls Questionnaire). Program agencies then do the Programmatic Risk Assessment.**
- 2. Illinois charitable registration (to solicit in IL). File CO-1 (initial) and then annual AG990-IL via the new online portal. (The portal launched in 2025 and is now paperless.)**

3) Wisconsin specifics

- 1. Wisconsin charitable registration (to solicit in WI). Register with WI DFI (Form #296) and file annual financial reports per thresholds. Online services available.**
- 2. State grant portals you’ll actually use:**
 - **WI DOJ Egrants (many community & safety/outreach grants). Create a Wisconsin Login ID and Egrants account.**
 - **Wisconsin eSupplier (STAR) for vendor/payment setup with the State (free). You’ll need a WAMS ID; add NIGP codes; obtain a STAR Supplier ID (common for being paid).**

4) “Numbers” you’ll end up with (and where they come from)

- **EIN – IRS**
- **UEI – SAM.gov**
- **CAGE – auto-assigned upon active SAM registration**
- **Illinois: GATA pre-qualified status in Grantee Portal; IL AG Charity Registration # (after CO-1); annual AG990-IL filings.**
- **Wisconsin: DFI Charity Credential #; STAR Supplier ID (for state payments); Egrants user accounts.**

2026 Grant Shortlist (Capital, Rent/Ops, Outreach)

(Windows are annual/recurring; always check the active NOFO/RFP.)

A) Federal or State-administered Federal

- 1. USDA Community Facilities Direct Loan & Grant (rural) – Funds facility purchase/new construction/renovation for essential community services (e.g., food pantry/community center) in rural areas (<20,000 pop.). Nonprofits eligible; grants/loans depend on median income & project.**
- 2. Community Development Block Grant (CDBG) – Acquisition/rehab of public facilities and community spaces, typically via your city or county (you apply as a subrecipient).**
 - **Illinois CDBG (DCEO Office of Community Development).**
 - **Wisconsin CDBG Public Facilities (DEHCR).**
- 3. FEMA Nonprofit Security Grant Program (NSGP) – Target-hardening (cameras, access control, doors, etc.). Doesn't buy buildings but can fund security capital upgrades. Apply through IL (IEMA-OHS) or WI Emergency Management.**
- 4. AmeriCorps State & National (via Serve Illinois / Serve Wisconsin) – Funds program costs & member living allowances (can cover a share of rent/ops if allowable/allocable). Competitive & formula rounds each year (subject to appropriation).**
- 5. 21st Century Community Learning Centers (after-school) – State-run; supports robust out-of-school programming (staff, materials, some facility costs if allowed).**
 - **IL: monitor ISBE pages for FY26+ rounds.**
 - **WI: DPI 21st CCLC program (recurring competitions).**

B) Illinois – state/local

- 6. ISBE After School Programs – Non-School Districts (FY2026) – State GRF dollars for community orgs (ops incl. staff; check rent allowability in NOFO). FY26 NOFO announced Aug 2025 in IWAS.**
- 7. Chicago Neighborhood Opportunity Fund (NOF) – Build-out/rehab of commercial & cultural spaces in eligible corridors; nonprofits may be eligible if the site qualifies. Cycles open periodically.**

C) Wisconsin – state/local

- 8. WEDC Community Development Investment (CDI) Grant – Capital investments (building rehab, downtown catalytic projects). Usually the municipality or development org applies; nonprofits often partner.**
- 9. Local CDBG (city/county) – See A2 (apply via your municipality).**
- D) Private/National (good for capital repairs, rent/ops, outreach)**
- 10. The Home Depot Foundation – Community Impact Grants – In-kind building materials for volunteer-led facility repairs (food pantries, shelters, community spaces). Annual cycles.**
- 11. Lowe's Hometowns – Larger capital improvements to community assets; annual national cohort.**
- 12. Zilber Family Foundation (Milwaukee) – Supports neighborhood development; capital projects eligible.**
- 13. Bader Philanthropies (Milwaukee) – Community-focused grants; capital and operating considered (program-aligned).**
- 14. Chicago Community Trust – Rolling initiatives; often offers general operating support through partner programs (monitor opportunities/newsletter).**
- 15. Grand Victoria Foundation (IL statewide) – Focused Illinois philanthropy;**

consider for general operating/programs aligned to their priorities.

- 16. United Way (Chicago / Greater Milwaukee & Waukesha) – Competitive program & operating support via partner networks.**
- 17. Compeer Financial – Fund for Rural America (IL/WI) – Rural community & infrastructure micro-grants; good for equipment/site improvements (check current year focus).**

⚠ Note: Walmart discontinued its Local Community Grants program; don't plan on that line item for 2026.

Faith-based compliance (quick but important)

Faith-based orgs can compete for federal/state funds; you just must keep any explicitly religious activities separate in time or location from services paid with grant funds (no worship/proselytizing with direct federal \$\$). Build your budgets/scopes accordingly.

30-Day Action Plan (you can start now)

- 1.EIN / SAM / UEI verified and active; assign EBiz POC & AOR; set Grants.gov saved searches.**
- 2.Illinois: Finish GATA registration + ICQ; move IL AG registration to the online portal.**
- 3.Wisconsin: File DFI charitable registration; create Egrants logins; complete eSupplier/STAR vendor profile.**
- 4.Facilities strategy: If rural, scope a USDA Community Facilities concept note; if urban, engage your city/county CDBG contact early.**
- 5.Shortlist two private capital partners (e.g., Home Depot/Lowe's) for 2026 project-ready applications.**

1. How to Become a Re-entry Program

Re-entry ministry is not just mentoring. It needs a documented model: target population, referral source, case management flow, housing/employment plan, ID recovery, behavioral health support, and post-release follow-up. In Illinois, relevant state models include R3 Reentry and 235 Successful Re-Entry, which emphasize pre-release and post-release support, especially for people with mental illness or co-occurring substance use needs. Wisconsin law specifically contemplates DOC contracts with nonprofits or agencies to establish community reentry centers, and DOC's OARS program is a partnership model for higher-need returning citizens. Indiana's correctional system also frames successful reentry as part of its mission, and the state's Recovery Works program is designed for uninsured people involved with the criminal justice system who need treatment and recovery services.

Use these steps:

define the population → choose services → build referral partnerships → document outcomes → pursue state/foundation funding.

A church or nonprofit should start by partnering with probation/parole, local DOC contacts, workforce agencies, housing providers, and behavioral health partners before calling itself a re-entry program. That makes the ministry credible when applying for grants.

2. How to Set Up a Drug Rehabilitation or Recovery Ministry

Teach them that there is a major difference between a support ministry and a licensed treatment program. If a church wants to offer support groups, peer recovery, mentoring, transportation, and recovery coaching, that can often be done as ministry programming. But if it wants to provide clinical addiction treatment, detox, outpatient, residential, or bill Medicaid, it must meet state certification or licensing rules.

In Illinois, substance use treatment and recovery funding is tied to the Department of Human Services' Division of Behavioral Health and Recovery / SUPR, and the state's manuals describe funded organizations as licensed and/or Medicaid-certified providers depending on the service type. In Indiana, the Division of Mental Health and Addiction certifies addiction treatment providers. In Wisconsin, DHS certifies substance use treatment programs, including outpatient, inpatient, detox, residential, prevention, and overdose treatment, through the DQA provider system.

- Path A: Recovery Support Ministry — peer support, meetings, mentoring, family support, recovery navigation.**
- Path B: Licensed Treatment Provider — requires certification/licensure, policies, clinical staff, compliance, and state approval.**

That distinction will keep churches from unintentionally promising treatment services they are not authorized to deliver.

3. How to Start a Literacy Ministry

This section should teach them that literacy programming is one of the easiest ministry expansions to fund if they structure it correctly. In Illinois, the State Library's adult literacy grants support reading, writing, math, and English instruction for adults lacking basic academic skills, including volunteer tutor models. Illinois also has adult education and literacy basic grants under WIOA Title II. Indiana's DWD runs adult education grant competitions for eligible

providers, and Wisconsin's AEFLA grant structure runs through the Wisconsin Technical College System.

For the workbook, I'd teach them to choose one literacy lane first:

- **adult basic literacy,**
- **ESL,**
- **GED/HSE support,**
- **family literacy,**
- **financial literacy.**

Then build curriculum, volunteer/instructor plan, learner intake, attendance tracking, pre/post assessments, and referral pathways. That is what turns "we want to help people read" into "we are a fundable literacy program."

4. How to Build a Domestic Violence Program

This section needs careful language. A church can offer support ministry, prayer, referrals, and nonclinical advocacy. But a real domestic violence program must be survivor-centered, trauma-informed, confidential, and aligned with state rules.

Illinois is explicit: eligible applicants for domestic violence prevention and treatment funds include 501(c)(3) nonprofits with experience in domestic violence services, and operational community-based programs must demonstrate compliance with the Domestic Violence Services Guidelines Manual. Indiana's ICJI uses SSBG, FVPSA, and state DV funding to support emergency domestic violence programs that provide shelter, meals, and transportation. Wisconsin DCF's Domestic Abuse Program administers state and federal funding dedicated to shelter and supportive services for survivors and their children, and DCF encourages organizations to register in eSupplier to receive grant notices.

5. How to Get Set Up for State Tax Benefit / Tax Return Funding Programs

Important Reminder:

Churches should not apply to every grant listed.

Strategic preparation increases approval and credibility.

Grant Development Support Available Through JJTC:

- **\$750 – Federal Grants**
- **\$550 – State & Community Grants**
- **\$350 – Local Grants**
